

NAME _____

Sunnyvale FLL Application Packet:

Complete applications must be turned in by all students interested in participating on a Sunnyvale FLL team for the 2018-2019 school year (including students who have previously participated on a team). Participation is limited to students who attend Sunnyvale Elementary School during the 2018-2019 school year.

Completing this packet does not guarantee that a student will be placed on a team.

There will be two teams, we will evaluate the applications received, consider the number of spots available, and use our best judgement to determine which students will be asked to participate and on which team those students will be placed.

Please indicate if you have participated in FLL jr. in the past.

****All materials must be submitted to Mr. Stout in room 412 by 4:30pm on Friday, September 7th. No exceptions. Applications will be happily accepted earlier than that date, but will be turned away if they are submitted late.**

What is FLL?

FLL is a robotics program for students in 4th grade that is intended to get students excited about science and technology while teaching them important life skills. Small teams of students program an autonomous robot to score points on a predetermined mat, do research and create an innovative solution to a problem as part of a Project, and are guided through everything they do by the FLL Core Values. These three elements - the Robot Game, Project, and FLL Core Values make up the yearly FLL Challenge.

The challenge is released in late August and Sunnyvale teams will generally meet at least once per week after school to prepare for a tournament which takes place in late November or early to mid December (teams often meet twice per week as the date of the tournament approaches). Students are also expected to do research/work on their own in support of their team's efforts. Teams will meet on Tuesday's from 3:45 - 5:30. This is an intensive program which takes significant time, especially during the tournament season. Since this is a team activity, students must be dedicated to working both independently and with the rest of their group and to participating throughout their time on the team in order to ensure the group's greatest chances of success.

At the tournament teams are judged on their robot (mechanical design, programming and strategy), their project (research, innovative solution and presentation) and their "core values" (inspiration, teamwork and gracious professionalism) and also compete in a robot competition. Teams that do well enough at the tournament may advance to a state championship tournament that will be held in January or early February and teams that do well enough at that tournament may advance to national or international tournaments held from April through July.

Students who are interested in applying to be on a Sunnyvale FLL team should complete the following application packet and turn it in by the deadline.

You can get more information about FLL through the FIRST Website: <https://www.firstinspires.org/robotics/fll>. You may also direct questions to Mr. Stout at jeremy.stout@sunnyvaleisd.com

Sunnyvale Lego League Policies

Philosophy - All participants deserve the opportunity to participate in Lego League in a safe and nurturing environment. Participants need to represent the school and our learning community in a safe and responsible manner.

1) Although Lego League is an after-school activity, all school rules remain in effect and students must follow the rules in the student handbook. Students must pay particular attention to how they behave in common areas (ie: no running in the hallways) and must also follow school rules regarding computer usage (do not attempt to defeat school firewalls or use social media, etc). If in doubt, consult the school handbook of conduct. Students who cannot follow school rules will be asked to leave the team.

2) Behavior: Displays of aggressive or anti-social behavior and/or use of profanity will not be tolerated. Bullying, threatening or intimidating of other students or the use of profane language or code words for profane language will result in the student being removed from the group until s/he can behave in a respectful manner. His/her parent will be notified. The second time the student will be asked not to return to Lego League until the student, his/her parent and the coach meet to talk about the student's behavior. A third instance can result in the student not being allowed to continue with the team.

3) Assignments: There are homework and research assignments associated with Lego League. The first time a student does not complete an assigned task they will be given the opportunity to complete the task during the meeting and his/her parent will be notified. The second time a student does not complete a task her/his parent will be called to pick the student up and the student will not be able to continue with Lego League until they have completed all assignments.

4) Attendance: Attendance is not optional. If a student is unable to attend a meeting, his/her parent must contact the coach as soon as possible. Students with multiple unexcused absences will not be allowed to continue with the team. Unless approved by the coach, it is assumed that regularly scheduled FLL meetings will take precedence over other after school activities that the students may want to participate in. Teams get disqualified if one team member is not in attendance during competition. Attendance to the competition is mandatory.

5) Timeliness: Being on time for practice and competition is essential. If a parent is unable to drop-off or pick-up a student on time, his/her parent must contact the coach as soon as possible and/or make other arrangements. Students with multiple unexcused tardies or who does not have arrangements to be picked up on time on multiple occasions will not be allowed to continue with the team.

6) Core Values: Students need to adhere to the core values of FIRST Lego League. These values are:

- We are a team.
- We do the work to find solutions with guidance from our coaches and mentors.
- We know our coaches and mentors don't have all the answers; we learn together.
- We honor the spirit of friendly competition.
- What we discover is more important than what we win.
- We share our experiences with others.
- We display **Gracious Professionalism®** and **Coopertition®** in everything we do.
- We have FUN!

Essay

Why you want to join a Sunnyvale FLL Team Essay

In 250 words or less, tell us why you want to join a Sunnyvale FLL Team.

Make sure you include:

- What is involved in participating in FLL and what the goal of the program is (if you don't know you had best do some research).
- What you hope to learn and accomplish as part of a Sunnyvale FLL team.
- How do you think you would be able to contribute to the success of a team.

(remember to explain what you think it means for a team to be successful)

Tournament Attendance Contract

FLL is a competitive program. **Attendance to the tournament is NOT optional.** Students are expected to participate in and attend all the scheduled activities during the tournament. With the exception of illness and family emergencies nothing excuses a student from participating at the tournament. Teams get disqualified if the whole team is not in attendance during the competition and the team becomes ineligible to win awards.

By signing this document you are committing to have your child attend the Regional Qualifier Tournament and State Competition (If the team advances to state). These events are mandatory and only excused due to illness or family emergencies.

If a child is not able to attend the entire tournament, for reasons other than illness or family emergency, he or she will be dismissed from the team and all fees will be forfeit to the program.

I _____ understand that my child
_____ must attend the Regional Qualifier
Tournament and the State Competition, if the team advances.
